

FOREVER PURE DRINKING WATER

Kinetico K5 Drinking Water Station®

Alleviate your water worries, today and tomorrow, with clean, crystal clear, worry-free drinking water.

- Certified Contaminant Removal
- Customizable and Expandable
- Convenient and Economical
- Abundant Supply of High Quality Water

A difference you can see, smell and taste

untreated vs. treated water

We can no longer take the quality of our drinking water for granted. Eliminate nearly everything from your home's water that isn't water with the K5 Drinking Water Station.

Enjoy clear, pure water without unpleasant tastes or odors right from the tap. High quality water will also improve your water-based beverages and food prepared with water.

Better water brilliantly designed

Only the K5 Drinking Water Station gives you this level of protection, flexibility and customization while supplying you with unbelievably great-tasting, high quality water.

① PreFilter

The PreFilter removes chlorine used in large-scale municipal water treatment, as well as sediment particulates down to 1/16 the diameter of a human hair.

② Reverse Osmosis Filtration

Through a process known as reverse osmosis, water is forced through a semi-permeable membrane that filters inorganic contaminants like metals and nitrates.

③ FlexFiltration

Revolutionary dual FlexFilters provide customizable filtration to tackle your water's individual filtration needs. Use any two of the following cartridges or none—the choice is yours.

④ PostFilter

The PostFilter removes any remaining inorganic compounds that could cause foul taste or odor.

FlexFiltration Cartridges

-  **VOC Guard**—Significantly reduces volatile organic compounds (pesticides, paints, cleaning supplies and other chemicals)
-  **Mineral Plus[†]**—This additive cartridge lets you add beneficial minerals such as magnesium and calcium to your treated drinking water
-  **Purefecta[®] Guard**—Generates biopure drinking water, significantly reducing 99.9999% of bacteria and 99.99% of viruses
-  **Arsenic Guard^{®†}**—Specifically designed to filter arsenic (As III)
-  **Perchlorate Guard[†]**—Significantly reduces the amount of perchlorate, a byproduct of certain forms of manufacturing
-  **Chloramine Guard[†]**—Significantly reduces chloramine, a chemical used to treat municipal water sources

[†] These cartridges are not tested and certified by WQA.

Kinetico's innovative features

PureMometer[®] indicates how much filter capacity remains

MACguard[®] shuts off flow automatically when filters expire to safeguard against impurities

EverClean[®] Rinse prolongs filter life by cleaning the system with the very same high-quality water produced by the system

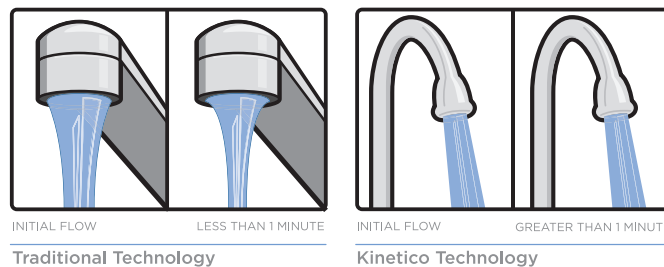

QuickFlo[®] provides consistent flow rates regardless of whether the storage tank is full or nearly empty

Exclusive Faucet elegantly dispenses a steady stream of great-tasting drinking water

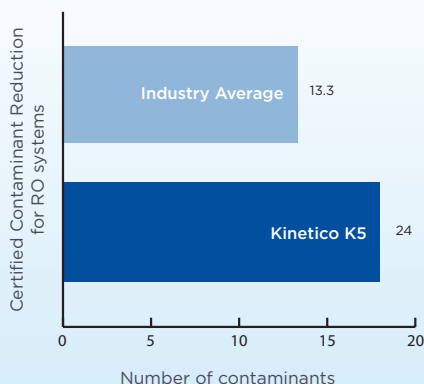

Outperforming all others

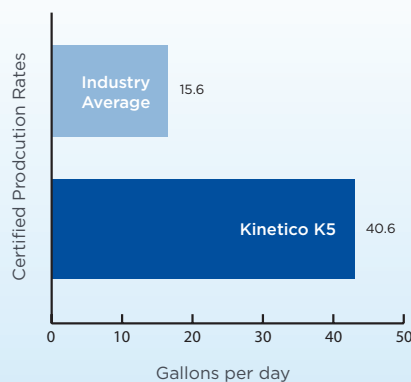

Not only is the Kinetico K5 Drinking Water Station certified to remove more contaminants than any other system, it also offers higher production rates—producing more than 40 gallons of drinking water daily—along with higher, more sustained flow rates made possible by QuickFlo technology.

Removes More Contaminants

Higher Production Rates

Environmentally yours

Kinetico has spent half a century improving water and lives with environmentally-responsible innovation in water technologies. Our non-electric, highly efficient water systems provide clean and healthy water to people all over the world in a sustainable way. [Better water flows from better thinking.](#)

Made in the USA. Put to work worldwide.

Since 1970, Kinetico has been designing and manufacturing water treatment systems right here in the USA that solve a variety of water problems. Kinetico continually develops and offers products to meet the diverse water treatment needs of people in nearly 100 countries worldwide.

Our professional promise

Kinetico dealers hold themselves to loftier standards. Nobody brings a higher degree of professionalism into your home. [We promise.](#)

Independent Laboratory Certification

The Kinetico K5 Drinking Water Station is Tested and Certified by WQA against NSF/ANSI Standards 42, 53, 58, 372 and CSA Standard B4831-Drinking Water Treatment Systems. Removes 99% Perfluorooctanoic Acid (PFOA) and Perfluorooctane Sulfonate (PFOS). Conforms to NSF/ANSI 53 for VOC reduction. (Refer to the Performance Data Sheet for individual contaminants and reduction performance).

When used in conjunction with an air charge tank and prefilter (Part Nos. 9309A or 9461A), the Kinetico K5 Drinking Water Station equipped with the Purfecta Virus/Bacteria Guard cartridge is Tested and Certified by WQA against NSF P231-Microbiological Water Purifiers.
